

Abstract

5 A heat recovery arrangement. The arrangement
comprises a housing including a bathroom exhaust inlet, an
exhaust outlet, a bathroom exhaust airflow path through the
housing from the bathroom exhaust inlet to the exhaust outlet,
10 a return air inlet, a return air path through the housing from
the return air inlet to the exhaust outlet, an outside air
inlet, a supply air outlet, an outside air path through the
housing from the outside air inlet to the supply air outlet;
and a heat recovery device extracting heat from the exhaust
15 airflow path and the return airflow path and transferring heat
to the outside airflow path.
